### Product Information:

Name: 12-language (((Speaking))) Global Translator  
Model: TGA-490  
MSRP: \$229.95  
Date commercially available: 12/06

The 12 Language Speaking Global Translator contains over 450,000 words and 12,000 phrases, and speaks 115,000 words in recorded *human voice*. Includes 12 languages and translations to and from Chinese (Mandarin), Dutch, English, French, German, Italian, Japanese, Korean, Polish, Portuguese, Russian and Spanish. This device also features voice recording – which allows you to record custom words and phrases appropriate to travel or business needs. Phonetic spell correction feature finds even misspelled words and an MP3 Player, earbuds, AC adaptor, five games, organizer, local/world clock, calculator, currency and metric converter, and USB connectivity.

**Who cares?** As a traveler, you don't want to worry about going to a foreign country and not being able to speak in a native tongue!

**Why bother?** You may have instant access to a translation/definition in a book but if you are saying the word or phrase incorrectly (especially in an emergency) what good is it!
