kwikSynCh™

The world's smartest charger

Model No.: SY-2201
First Available: Nov 2006
MSRP: \$14.95

Use the kwikSynCh to charge/sync/connect mobile devices, including cellphones, smartphones, PDAs, MP3 players, Bluetooth headsets, digital cameras, game players, flash drives and all USB accessories. Unique dual output functionality enables charging/syncing one device, while charging another, from a single plug. Interchangeable mTips™ provide compatibility with hundreds of leading brands, including Motorola, Nokia, Treo, iPod, BlackBerry, Sony, Jabra, LG and many more. Plug-on adapters enable charging from the Car and Wall, in addition to USB. Compact and lightweight, the kwikSynCh fits easily in a briefcase or laptop bag, and is the only charger today's road warrior needs to carry.

Who Cares?

Business professionals, mobile workers, college students and anyone else who owns a cellphone, iPod, Treo or hundreds of other mobile devices, and would like to cut down on their gear, save space and reduce weight while working or traveling.

Why Bother?

With its dual charging capability, multi-functionality and ultra portable design, the kwikSynCh is the smallest, smartest and most cost effective mobile device charging and syncing solution available today.
