# DocuPen RC800 Executive Kit

**Date Available:** January 8, 2007

**Retail Price:** \$399.99

The wand-size DocuPen RC800 color scanner (freshly reengineered for more run-time per charge and increased capacity for storing more than 400 scanned pages) now comes in a new Executive Kit that includes an innovative Universal Mobile Charger, an extraordinary universal memory reader and several other useful accessories. Scanned images transfer to PC via a USB connector in the DocuPen; an included retractable cable simplifies the connection.

**Who cares** - Any one who needs to scan anything anywhere

**Why bother** - Because away from the office, the need to scan or copy something seems never to happen when there's a scanner or copier around and now you can carry your own.
