Available: Q1 2007 through selected retailers, RIDATA distributors, and various online outlets. MSRP for the USB HUB are: 512MB \$29, 1GB \$59, 2GB \$89, 4GB\$159

Advanced Media, Inc is adding to its EZ Drive™ lineup with the addition of five cool new USB 2.0 Flash Drives. Each of the elephant, monkey, bookmark, puzzle and uniform designs includes two additional USB ports, which allows users to combine each USB drive into a USB HUB and add on more mobile devices. The versatile drive has its own storage up to 4GB. The USB Flash Drives feature advanced partition and security functions for users to create password-protected sectors for the storage of personal or highly confidential material. A tie-style LED indicator shows usage status, assuring there is never any doubt as to which port is in use. The RIDATA USB EZ Drives are available from 128MB to 4GB capacities, weigh under 10 ounces and has a two-year warranty. Visit [www.ritekusa.com](http://www.ritekusa.com) for more information.

**Who Cares?**

People who are fun -loving multiple device users will enjoy this product to move data, music, video and photos easily from their USB drive to other USB devices and vice versa.

**Why Bother?**

Now you can have up to 4GB more memory and gain two ports while having fun storing data and adding other USB devices!
